**Purpose of Inspection:**

I was in the area, hadn't seen the site for about three years, and decided to stop and see what the status was.

**Inspection Summary:**

General comment: I last visited this site when the Division had a proposal for a large mine. I do not believe the pit (Photo 1) was present at the time, but I could be mistaken. When the site is reclaimed, a portion of the road should be included although part of the road is probably used by people with grazing permits.

**2. Public safety**

The pit has been graded so it would be possible for a person or an animal falling in to get out.

**Directions to the site:**

Travel on US 6/191 4.8 miles south of the turnoff to Lila Canyon. Turn east, go through a gate, and travel 2.9 miles to the turnoff to the mine. Turn left, and it is a few hundred yards to the mine. The road crosses a drainage in which there is a stock watering pond.

**GPS data:**

I did not collect GPS data.
